

Congratulations!

You own a FORTIFIED Home.

This certification requires a renewal every 5 years.
Here's what to expect & how to prepare for renewals....

NEARING 5 YEARS...

Call Knockout Inspections to schedule your renewal inspection with one of our in-house FORTIFIED Evaluators.

FOR THE RENEWAL INSPECTION...

Only an exterior assessment is involved. A FORTIFIED Evaluator from Knockout Inspections will walk around your property and take pictures necessary for documentation. Their team will handle all the paperwork to send off for your renewal certificate, and you won't be charged until an approved certificate comes back.

DON'T DELAY...

You'll have a 1-year grace period. If you do not renew your certification during that window of time, your home will no longer be eligible for FORTIFIED certification and all the benefits that brings.

TOP TIP: Should you consider adding on to the exterior of your home, have the work overseen by a FORTIFIED Evaluator who can ensure your home remains within the eligibility guidelines for certification.
